

Future Problem Solving of Virginia

2019 - 2020 Training Workshops

FPS Process

Whether you are a coach with no experience or one with many years of experience, this workshop is for you. New coaches will learn the FPS six-step process and how it is applied in the competitive component - Global Issues Problem Solving (GIPS). Experienced coaches will learn strategies within the process for improving their understanding of how to improve their teams' use of the process and how to apply this competitively.

Evaluator Training

Understanding of the evaluation process provides novice coaches, as well as experienced coaches, with an understanding of the authentic scoring procedures used to provide feedback to the Global Issues Problem Solving teams and individuals. An understanding of this process allows coaches to provide teams with accurate information with regard to improving their use of the FPS process.

Participants must bring a device with access to Excel.

Who:	<ul style="list-style-type: none">• New coaches• Experienced coaches or <ul style="list-style-type: none">• New evaluators• Experienced evaluators
